Kindergarten

St. John the Baptist Kindergarten Program

The following are the expectations each child in the St. John's half-day and full day Kindergarten programs will achieve throughout the year:

- Each child will be exposed to all concept of print, including the names and shapes of the letters of the alphabet
- Each child will demonstrate phonemic awareness through activities such as rhyming and substituting beginning sounds
- Each child will learn to recognize upper and lower case letters
- Each child will learn how to read his/her own name and other's names and common environmental prints in the classroom
- Each child will learn to read some high frequency words
- Each child will write independently using inventive spelling
- Each child will retell simple stories that have been read in the class
- Each child will demonstrate understanding of sets and whole numbers
- Each child will measure and compare length, weight, and capacity
- Each child will learn to identify and use patterns
- Each child will participate in collecting data through graphing activities
- Each child will work cooperatively in a classroom environment
- Each child will exhibit socially acceptable behavior with classmates
- Each child will develop an appreciation for Christian values as they apply to family, school and community life.

These academic skills will be reinforced in both the half-day and full day programs. The afternoon portion of the all day kindergarten will encompass supplemental activities such as participating in dramatic play, learning an appreciation for other languages, such as sign language, and further creative exploration of art, science and social studies.
