

Celebrate the Environment

Reduce Reuse and Recycle

What do you do with your old sneakers? Most likely you toss them in the trash if they are not suitable for hand-me-downs. Here is your chance to give those faithful sneakers a dignified renewal.

Recycle your worn-out sneakers at St. John's School!!

It doesn't matter if they are torn, tattered and smelly. It doesn't matter what size they are. They will go to the **Nike Reuse-a-Shoe** program, which will take those sneakers and turn them into a recycled product used for covering playgrounds, basketball courts and running tracks. You may drop off any brand of athletic shoes for recycling.

The collection box can be found in the school foyer.

NOT ACCEPTED

Sandals, flip-flops, dress shoes, boots and other types of shoes. Also, athletic shoes containing metal such as cleats or spikes cannot be accepted because they represent a safety hazard when ground into the surface product.
